INVESTMENT BOOTCAMP

YOUR STRATEGY'S OBJECTIVE AND THE INVESTABLE UNIVERSE.

02

Start your strategy, land its objective with your researcher, and build its point-in-time universe, with Golden-Flow beside it. Steps 1 and 2, before any data.

IN THIS SESSION

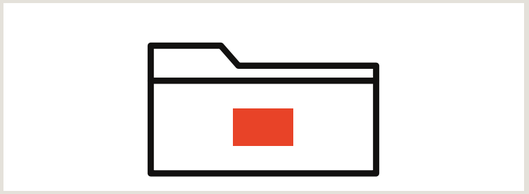

01 START YOUR STRATEGY

02 ITS OBJECTIVE

03 ITS UNIVERSE

04 WRAP-UP

FROM AN IDEA TO ITS INVESTABLE UNIVERSE.

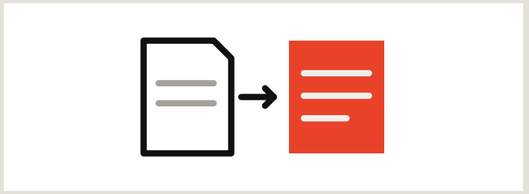

1 START

Your strategy, from scratch.

- `init-strategy`: its repository
- Two tracks: code or the Lab
- Golden-Flow, our example

You leave with: your repository

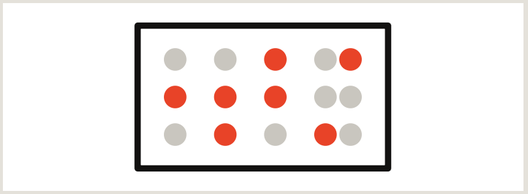

2 OBJECTIVE

Your idea, with your researcher.

- Your words, then the claims
- One source for, one against
- The benchmark, chosen first

You leave with: your OBJECTIVE.md

3 UNIVERSE

The members as they were.

- Dead stocks count
- In code, or on the Lab
- Its usable date

You leave with: your seed

4 WRAP-UP

What you learned, and what comes next.

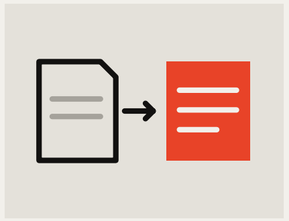

- Review it; ask `next`
- The session's ideas, in your words
- Next: your data, in S03

You leave with: your plan for S03

EIGHT STEPS. IN THIS SESSION, THE FIRST TWO.

THIS SESSION | S03 TO S05 | S06 | OUTSIDE THE COURSE

1 2 3 4 5 6 7 8

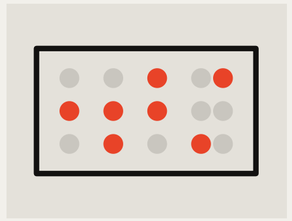

RESEARCH

S02

Your objective, from your library · OBJECTIVE.md

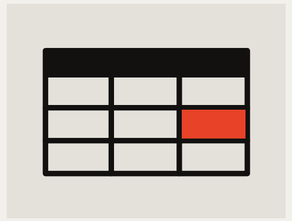

STEPS 1 AND 2

UNIVERSE

S02

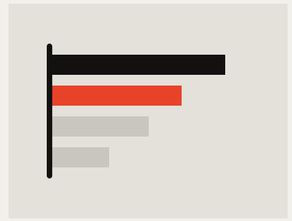

Which companies, when; delisted kept · Universe/

DATA

S03

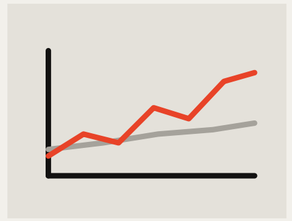

Your variables, and whether they carry signal · Data/

PORTFOLIO

S04

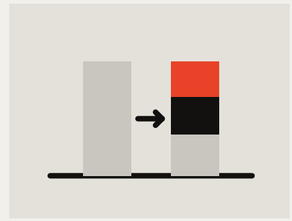

Your hypothesis, then portfolios · Experiments/

BACKTEST

S05

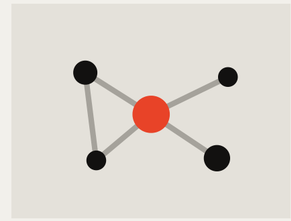

Your portfolio through time, net of costs

ATTRIBUTION

Tested without real money · Paper_Trading/

PRODUCTION

outside the course

From the S01 homework

bring your idea in one line and the benchmark it must beat.

ONE IDEA, ONE REPOSITORY.

ARYA · ITS HOME

`init-strategy` 1

The idea, in a sentence or two?

Stocks with a positive trend and high traded volume.

NAME

trend-and-volume | Other

2

Plan: `C:\Research\trend-and-volume`, the Strategy Template. Go?

Go | Change something | Stop

TREND-AND-VOLUME

```
README.md
OBJECTIVE.md
Bibliotheca/
Universe/
Data/
Experiments/
Paper_Trading/
SETUP.md  from step 2   3
```

1. In your home: `init-strategy`.
2. Pick a name, or type yours.
3. A new session there: `SETUP.md`.

TWO TRACKS, ONE REPOSITORY.

	WITHOUT CODE	CODE
Where you work	The Investment Lab's platform: a project from scratch, by clicking.	PyCharm or VS Code, in your repository.
Your objective	With your researcher, in the repository `init-strategy` made.	The same: the same repository, the same researcher.
Your library	Obsidian, over `Bibliotheca/`: read it and add documents.	Obsidian, or the same files in your editor.
Your universe	Universe · Creator, on the Lab.	The `universe-point-in-time` skill, in `Universe/`.
Steps 3 to 6	The Lab's pages, one per step.	The Lab's libraries, a skill for each.
Your results	The Lab's dashboards.	Your repository, and the Lab to view signals, backtests and attributions.
Who it is for	Who does not code, or wants to go fast.	Who wants to debug each step and customise any idea.

ONE ENGINE the same libraries under both tracks; you can switch track at any step.

OUR EXAMPLE, SESSION BY SESSION.

GOLDEN-FLOW · ITS RULE

`Golden-Flow · README.md`

Own the KN US Equity Core stocks the market is trading most,

while their trend is up, in proportion to what they trade.

None above a fifth of the book, none too small to matter.

WE REBUILD IT, IN CODE AND ON THE LAB

1	**ITS OBJECTIVE AND ITS UNIVERSE** Three claims; the benchmark's members, the dead kept.	S02
	ITS DATA AND ITS SIGNAL The golden cross and traded value.	S03
	ITS PORTFOLIO The hypothesis, then the weights.	S04
	ITS BACKTEST AND ATTRIBUTION Against its benchmark; where it came from.	S05
	ITS PAPER TRADING Frozen, with no real money.	S06

1 In this session: its objective and its universe.

`Golden-Flow · read it online · or init-example`

A CLAIM, AND WHAT SETTLES IT.

GOLDEN-FLOW · OBJECTIVE.MD

```
## The main idea  the owner's words, 2026-10-05   1
## The claims inside that sentence
   1 · The signal  confirmed as a book
      settled by  the rule without the cross?   2
   2 · The sizing  confirmed as a book
   3 · The construction  true by construction
## What is not claimed  a universe free of survivorship   3
## Where each half is named
   r_trend_50_200  signal
   r_traded_value_sma_63d  sizing
```

THE TEMPLATE'S SEVEN

Golden-Flow · OBJECTIVE.md

untested

measured (the analyzer says something; no book has been run)

falsified

confirmed as a book (it beats its benchmarks through the engine)

confirmed as a factor (attribution assigns it the return)

unexplained (confirmed as a book, not as a factor — the usual state, and the interesting one)

true by construction

1. Your words first.
2. Each claim, its settling question.
3. What is not claimed.

Statuses as of 2026-10-06, 2015 to 2026, in sample.

YOUR WORDS FIRST. THEN THE CLAIMS.

ARYA · TREND-AND-VOLUME

/objective

Your main idea, in your words?

A positive trend and high traded volume beat the market. 1

Drafted; your go?

go

Saved.

OBJECTIVE.MD · THE DIFF

```
## The main idea
## The claims inside …
  1 · … untested · a lead   2
  2 · … untested · a lead
  ~~Evidence: a paper~~   3
## What is not claimed
```

1. Your line from S01.
2. Read each claim.
3. Strike what you never said.

`Other assistants: say objective`

FROM A GENERAL IDEA TO ONE WITH EVIDENCE.

CLAIM	FOR	AGAINST	CONTRAST
1 · The signal: the golden cross, a trend	Faber (2007): a moving-average filter. Moskowitz, Ooi & Pedersen (2012): time-series momentum. Hurst, Ooi & Pedersen (2017): a century of trend.	Sullivan, Timmermann & White (1999): data-snooping in technical rules. Kaminski & Lo (2014): whipsaws when prices revert.	Jegadeesh & Titman (1993): momentum that is relative, not absolute.
2 · The sizing: traded value	—	Amihud (2002) and Datar, Naik & Radcliffe (1998): the least traded earn more.	Fama & French (1993): size, a factor.
3 · The construction	Asness, Moskowitz & Pedersen (2013): value and momentum move against each other.	—	—
Your idea: trend-and-volume	The same as 1, for your trend.	The same as 2, for your volume.	One of yours: upload it and say `read`.

WHAT CHANGED claim 2 was kept with every source against it; the analyzer measured it before any book.

UPLOAD A DOCUMENT, REFINE YOUR OBJECTIVE.

ARYA · TREND-AND-VOLUME

Moskowitz_Ooi_Pedersen_2012.pdf

read, claim 1

1

Saved. It implies: your trend is absolute, not relative.

2

/objective

I propose claim 1's evidence, from the note. Go?

3

OBJECTIVE.MD · REFINED

1 · The signal untested

Evidence Moskowitz et al. (2012)

Against a lead

2 · The sizing untested

Evidence a lead

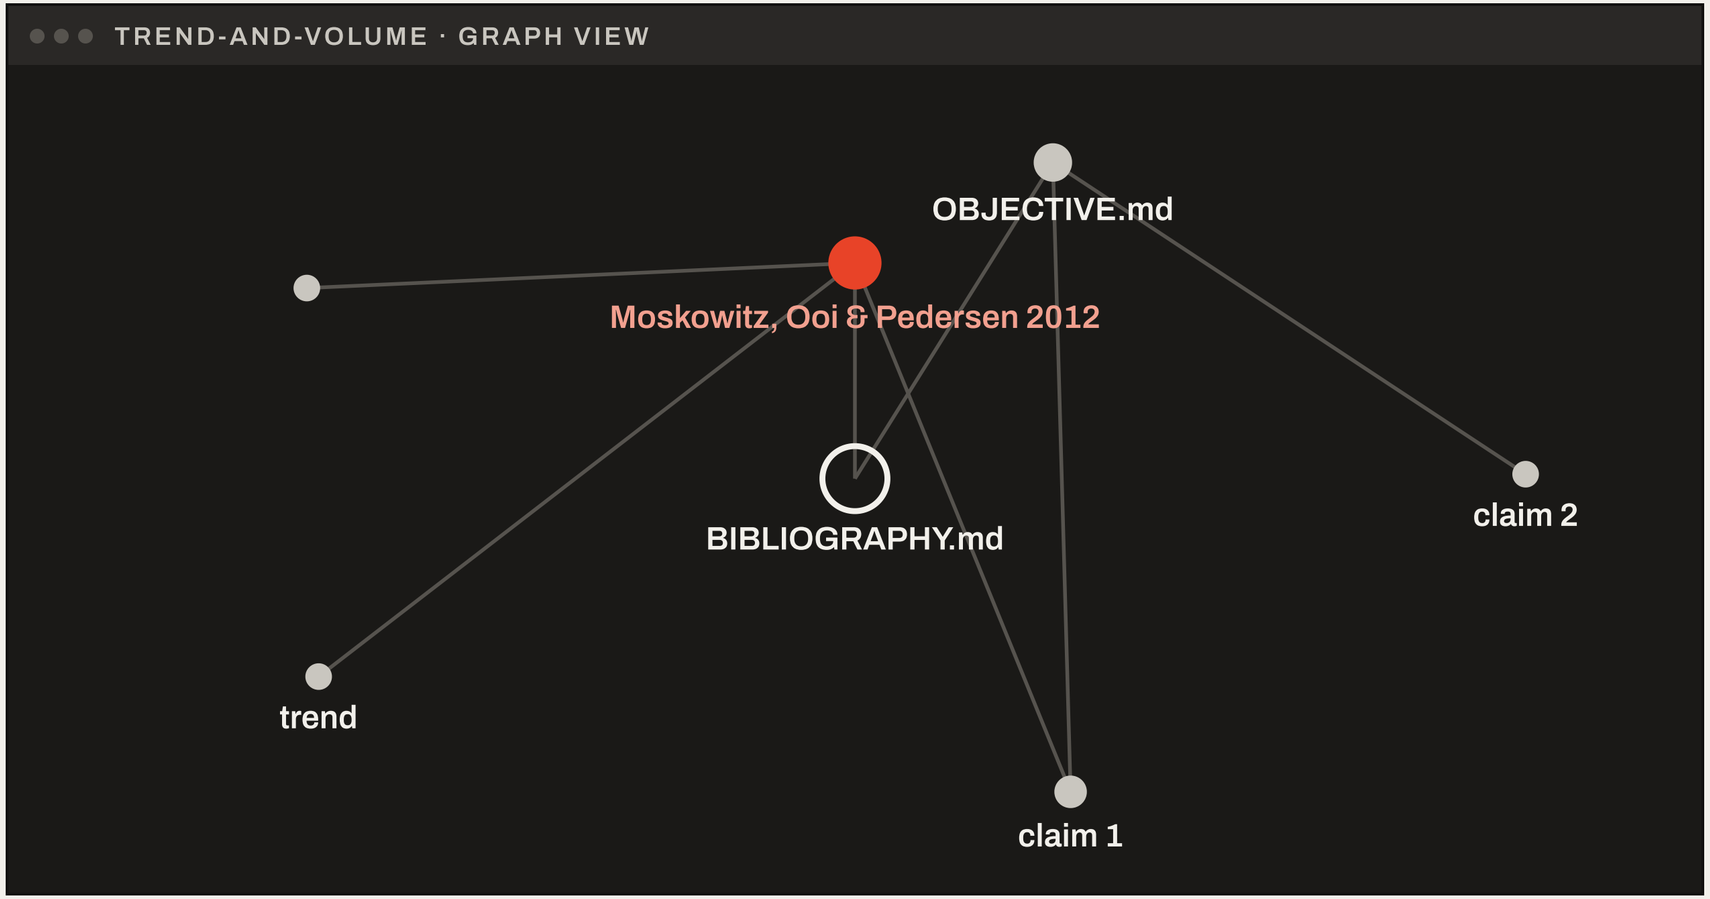

Bibliotheca/Papers/

Moskowitz_…_2012.pdf

Moskowitz_…_2012_….md

1. Upload the PDF: attach it, or put it in `Papers/`.
2. `read`: a note, and what it implies.
3. `/objective` again: the evidence, from the notes.

WITHOUT CODE: YOUR LIBRARY, IN OBSIDIAN.

1. Open your repository as a vault.
2. Add a PDF to `Bibliotheca/Papers/`.
3. Say `read`; watch the graph grow.
4. Edit `OBJECTIVE.md` by hand.

`obsidian.md` `Graph view` `Backlinks` `Search`

The no-code track: Obsidian and your researcher for the library; the Lab for the experiment.

THE BENCHMARK, CHOSEN FIRST.

ARYA · TREND-AND-VOLUME

Choose the benchmark with me; save a version. 1

Candidates, and the property that decides?

SPY, or an equal weight of my universe. Transparent.

Appended to `JOURNAL_1.md`. Saved. 2

GOLDEN-FLOW · JOURNAL_1.MD, 2026-10-06

First KN US Equity Core: “the transparent one: the universe is its membership”. 3

Second **SPY**: “the liquid one an investor could buy instead”.

1. Ask to choose it, with its property.
2. To the journal, saved.
3. Before the run.

DEAD NAMES CARRY PART OF THE RESULT.

2. Your rule, or your benchmark.
3. Check the dead and the date.

USABLE ONCE PRICED AND SIGNALLED.

GOLDEN-FLOW · HOW MUCH OF ITS BENCHMARK IT PRICED

Golden-Flow · FINDINGS_1.md · RESULTS.md

NEARLY ALL OF IT, EVERY YEAR

DECLARED	PRICED
90%	92.97%

Record run, 2026-10-06. Bars: each year's share of the benchmark FMP priced, as the experiment notebook printed it. Tiles: the universe notebook's, on 2015-01-02, the window's first day.

A file that starts in 2010 gives no signal in 2010. Write your start date and coverage in your benchmark entry.

GOLDEN-FLOW'S JOURNAL the gap sits in large dead companies.

REVIEW IT. THEN ASK NEXT.

FIVE CHECKS

1 · Scope only what you said 1

4 · Universe from the seed

11 · Secrets never printed

12 · Citations a note or a lead

13 · Explain every line, AI off

THE ORDER OF WORK

A ✓ → B → C → D

3

ARYA · TREND-AND-VOLUME

next 2

SETUP: DONE

.venv/ | Config/.env | README.md

Claim 1: no note.

Next: read, claim 1; then /objective again.

1. Review it.
2. Ask next.
3. B before D.

THE SESSION'S IDEAS, IN YOUR WORDS.

01

What does `init-strategy` give you? Which track?

02

What does your objective claim? What settles it?

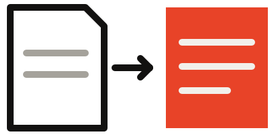

03

Why does your universe keep the dead stocks?

04

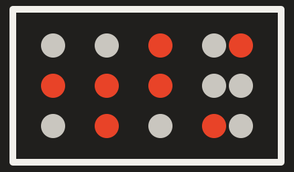

Against what do you measure it, and why first?

BEFORE S03: ARRIVE READY.

01 YOUR OBJECTIVE

- `read` one source per claim, one against.
- `/objective` again, with the notes.
- No code: watch it grow in Obsidian.

02 YOUR UNIVERSE

- Finish the seed, the dead kept.
- In code or on the Lab, saved on its own.
- Ask `next`.

03 READY FOR S03

- Choose your data provider.
- Its key, if it needs one: `Config/.env`.
- Golden-Flow: look at its `Data/`.

WRITTEN FIRST. TESTED NEXT.

Your claims, your universe and your benchmark, written before any result.

LEARN

The Bootcamp continues, then the pillars.

`github.com/KaxaNuk/Investment-Bootcamp`

TEST

Your strategy on the Lab; universes and factors from Analytics.
